

**Project Name: UNIVERSITY OF CALIFORNIA, MERCED
STUDENT HOUSING PHASE 4: THE SUMMITS
BID RELEASE 4: SIGNAGE**

Project No: 906270

ADDENDUM NO. 2

To the
CONTRACT DOCUMENTS
March 27, 2013

**BIDS DUE
April 2, 2013**

- I. Potential Bidder acknowledges that is the Bidder's responsibility to ascertain whether any Addenda have been issued and if so, to obtain copies of such Addenda. Potential Bidder therefore agrees to be bound by all Addenda that have been issued for this prequalification.

The following changes, additions, or deletions shall be made to the following documents as indicated and all other Prequalification Documents shall remain the same.

II. CHANGES TO DOCUMENTS

- i. NONE

III. CLARIFICATIONS

- i. Q: For a more cost effective method; can etched zinc be used for the exterior tactile sign as a substitution to photopolymer?

A: Please provide the signs as stated in the contract documents. Substitutions prior to bid will not be accepted.

- ii. Q: On sheet 4.0 (exterior mounted building ID signs) The letters shown on the drawing (front view) look like some are sitting on the bar and some letters are a part of the bar. Are the letters and bar waterjet cut from one continuous piece of 1/2" aluminum or are the letters cut individually and sitting on top of the bar?

A: The whole sign is one piece. The letters and bar are attached together.
